

USGBC LEED® Credit Contributions: C/S Acrovyn® Door System

MR Credit 4, Recycled Content:

C/S sources cores with the highest possible recycled content for the Acrovyn Door System. Contact us for the most up-to-date recycled content percentages.

MR Credit 6, Rapidly Renewable Material:

C/S offers doors made with rapidly renewable agrifiber cores.

MR Credit 7, FSC Certified Wood (SW-COC-000972):

C/S offers many FSC-certified door options.

EQ Credit 4.4, Low-Emitting Materials (Composite Wood and Agrifiber):

C/S composite wood and agrifiber doors contain no added urea formaldehyde.

C/S Acrovyn doors meet California Air Resources Board (CARB) phase 1 emissions standards.

ID Credit:

C/S Acrovyn Doors feature MBDC Cradle to Cradle Certified™ Silver Acrovyn 4000 PBT-free sheet. Free of PVC and BPA, Acrovyn 4000 carries a UL Class 1 fire rating and meets the CA 1350 protocol for good indoor air quality.

Contact us to speak with one of our LEED Accredited Professionals to learn more about LEED or how our products can help contribute to your project's goals.

Cradle to Cradle Certified™ is a certification mark of MBDC

The best way to achieve sustainability in a building is to design with the building's life cycle in mind. Specifying products and materials that protect a building from damage allows the architect/designer to maximize the life cycle of the building.

Durable Acrovyn cladding and replaceable wood stiles and door edges extend the life of the door, making it a truly sustainable system.

C/S is always working to make our products more sustainable. Listed on the left are some of the ways C/S Acrovyn Doors can contribute to your goal of LEED® certification.

C/S sustainable products can be viewed by visiting www.buildinggreen.com or www.c-sgroup.com
