

USGBC LEED® Credit Contributions: C/S Acrovyn® Wall Protection

MR Credit 4, Recycled Content:

C/S sources materials with the highest possible recycled content for all interior wall protection products. Contact us for the most up-to-date recycled content percentages.

MR Credit 6, Rapidly Renewable Materials:

C/S offers a line of hard-wearing bamboo wall protection products.

MR Credit 7, FSC®-Certified Wood:

FSC®-certified wood can be specified for all wood wall protection products (except Beech).

EQ Credit 4.1, Low-Emitting Materials (Adhesives):

Where adhesives are required, C/S wall protection products are shipped with adhesives that meet SCAQMD Rule #1168 guidelines.

EQ Credit 4.4, Low-Emitting Materials (Composite Wood):

C/S Acrovyn products contain no added urea formaldehyde.

C/S Acrovyn wall panels meet California Air Resources Board (CARB) phase 1 emissions standards.

C/S Acrovyn 4000 PBT-free wall protection is MBDC C2C Certified™. PVC/BPA-free, it meets CA 1350 protocol for good indoor air quality.

ID Pilot Credit 2, PBT Source Reduction:

Reduce the release of persistent bioaccumulative toxic chemicals (PBTs) associated with the life cycle of building materials.

ID Pilot Credit 43, Certified Products:

C2C Certified Acrovyn 4000 contributes to pilot credit 43 as a type 1 environmental certified product.

Contact us to speak with one of our LEED Accredited Professionals to learn more about LEED or how our products can help contribute to your project's goals.

Cradle to Cradle Certified™ is a certification mark of MBDC

Construction Specialties is continuously improving the quality of its materials and the environmental impacts of the processes that create them. This commitment is evident with the launch of new PBT-free Acrovyn 4000, our voluntary application for ISO 14001 certification and our recognition by Practice Greenhealth as a recipient of the Champion for Change Award for three consecutive years.

The best way to achieve sustainability is to design with the building's life cycle in mind. C/S wall protection products are designed and tested to maximize the lifetime of the buildings that they are installed in. When you specify C/S wall protection you are getting a time tested product from a responsible manufacturer.
