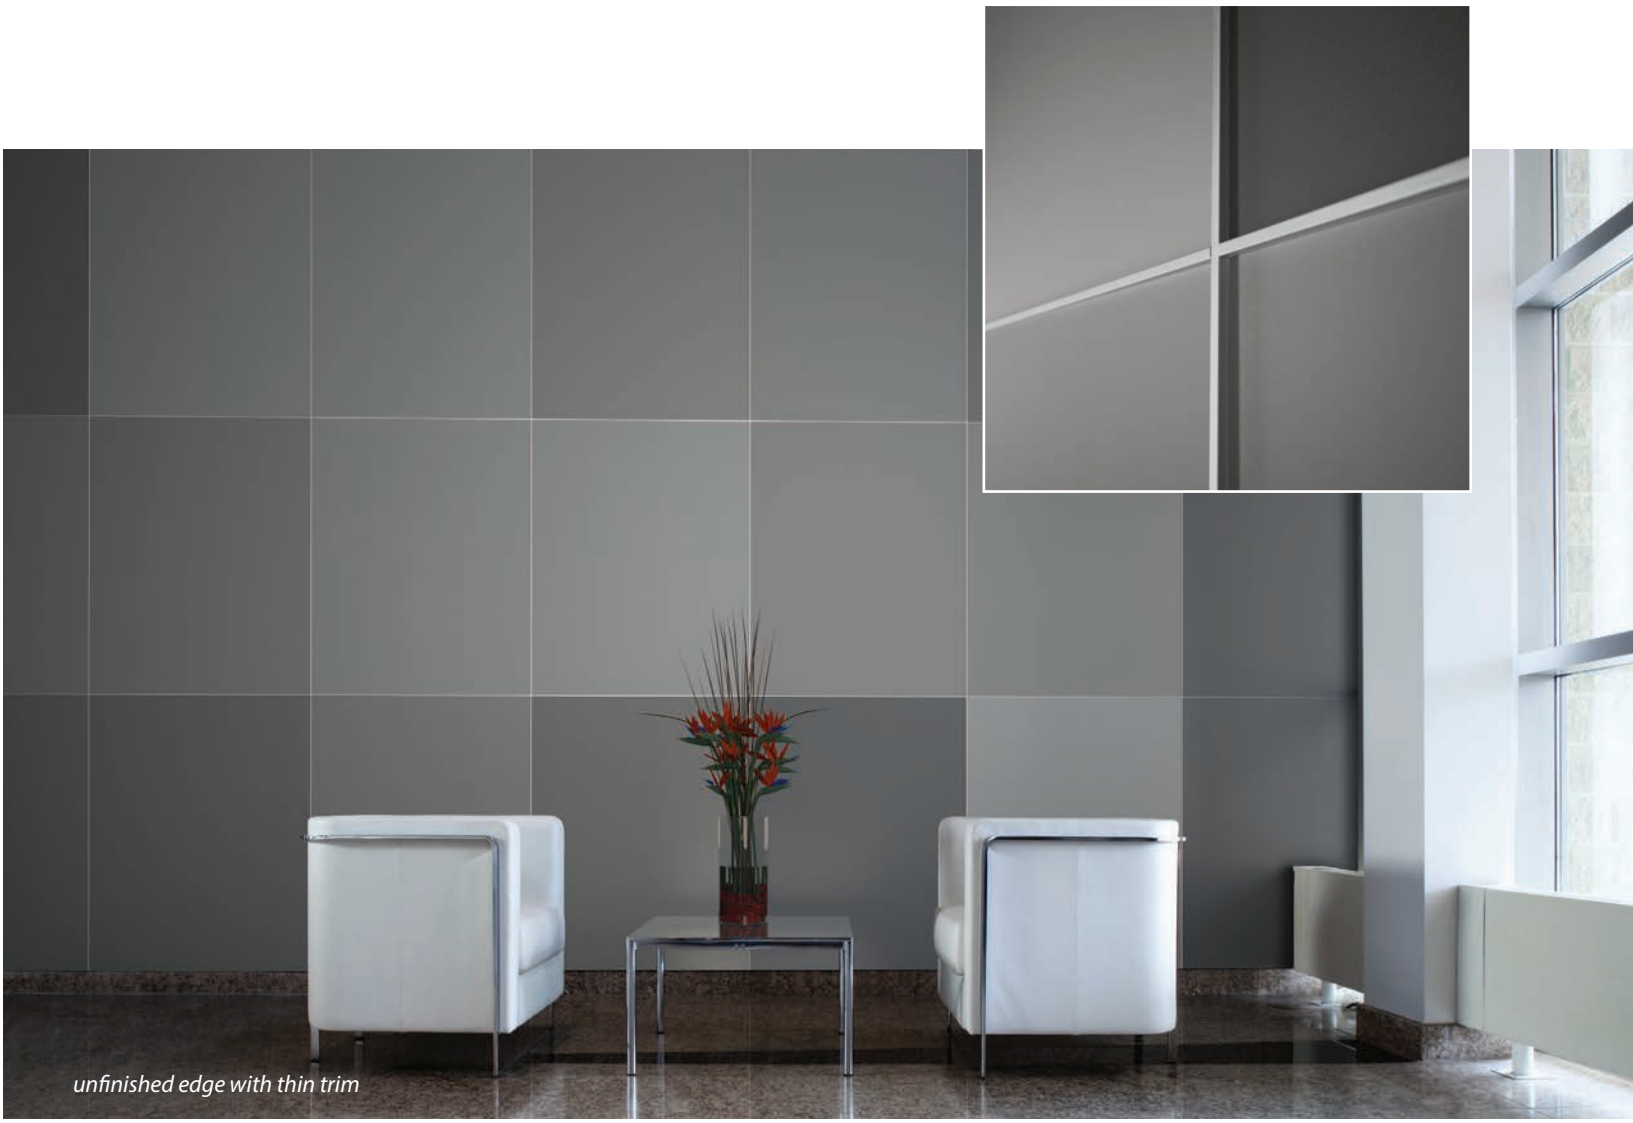
wrapped square edge with recessed reveal



unfinished edge with thin trim

reset your standards

Acrovyn Wall Panels have been reimagined to offer a variety of functional and aesthetic improvements. The offering has expanded to include wrapped square-edge panels, dimensional flexibility, graphic printing capabilities, new trim options and the Sure Snap™ System. Tailored to withstand high-traffic abuse, Acrovyn Wall Panels keep walls beautiful and damage free.

CONFIGURATION

a new look

Acrovyn Wall Panels can be incorporated into a variety of designs. The size of your panels can have the most impact on associated costs and manufacturing lead times, so we highly recommend that you determine your desired look as early as possible in the planning process. For your next project, consider the inspirational layouts throughout this catalog that other panel systems may not offer.

FINISH

unlimited possibilities

The Acrovyn Wall Panel collection of finishes now includes Acrovyn by Design®, giving you the freedom to create interior environments that range from classic to wildly expressive. Acrovyn is more durable than laminate and stained wood, so your vision will be preserved for years after installation.

Acrovyn® Solid Colors

EDGE

Acrovyn Wall Panels include a moisture-resistant barrier and are available in three edge selections designed to work with the trim and reveal options featured on page 11. Edge banding is necessary for most odd-shaped panels.

MOUNT

The Sure Snap™ System provides easy installation and removal, requires minimal field-verified dimensions and allows for cut-in-field flexibility, including the ability to splice panels. Permanent adhesive without clips is also available.

Sure Snap™ System

DEPTH

dimensional relief

Demountable panels can be 3/4" (standard), 1" or 2" deep; permanent adhesive panels without clips are 3/8" deep only. Both are 3/8" substrate laminated with .040" PVC-free rigid sheet and are UL Classified B/2 fire rated.

TRIM

frame your work

Specify Acrovyn Wall Panels with the look that fits your project's design. Ideal for unfinished edge panels, choose either Picture Frame or Thin Trim. Both aluminum trims are factory-installed, but this feature can be optional on permanently mounted panels.

REVEAL

To create the desired complementing or contrasting reveal color, mount (permanent or demountable) panels using the specified reveal width on the wall prefinished with paint, strips of Acrovyn sheet or other preferred wall treatment.

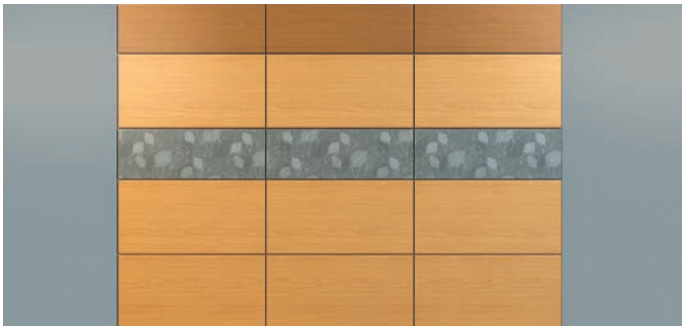
HEADWALLS

highlighting patient care

Both planning and design of a headwall are essential for creating a room that looks impressive while remaining functional. The configuration options shown allow for cut outs to address gas, electric and other services that may be required in the field. With Acrovyn Wall Panels, the design options are virtually endless and your vision will be well protected.

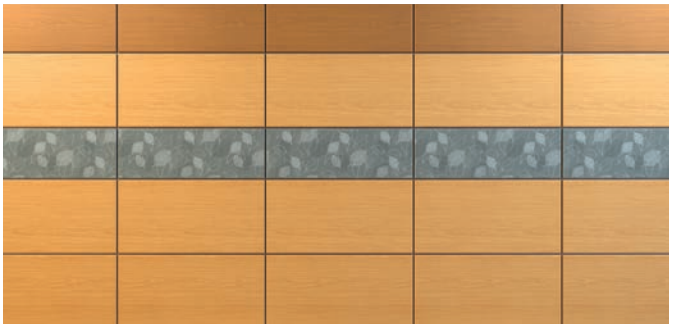
focal configuration

Create a headwall directly behind a bed as a design feature that will also protect the wall from abuse.



continuum configuration

This option transforms the entire wall behind the patient bed into a design feature that protects the wall from the bed, carts and additional furniture.



wrapped beveled edge with butt joint

tailor-made
simple

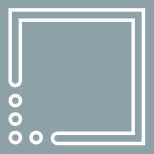
1

Select a configuration – utilize a classic design or your own imagination. Include a general panel size.

2

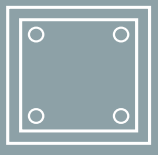
Select a finish — Acrovyn solid color, Chameleon simulated pattern or Acrovyn by Design digital imagery.

3



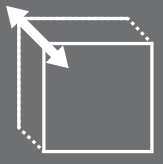
Select an edge treatment — wrapped square, wrapped beveled or unfinished.

4



Select a mounting option — demountable Sure Snap™ System or permanent adhesive without clips.

5

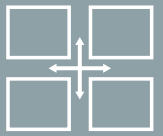


Select a panel depth — 3/4" up to 2" for demountable or 3/8" for permanent adhesive without clips.

6

Select a trim — Picture Frame, Thin Trim or no trim at all.

7



Select a reveal – recessed reveal or butt joint. Specify the distance between panels.
