The Acrovyn by Design® Tapestry™ Collection brings authenticity to design by utilizing textiles with artisan charm that embody tranquility, harmony, and balance. This collection evokes a sense of connection to nature and the experiences within.

Groves pattern, inspired by forests, fuses the depth of woven fibers with industry-proven Acrovyn® durability, cleanability, and impact protection in a uniquely engineered composite that traditional wall coverings and fabrics can’t match. The pattern runs vertically with natural variation.

Supplied in 4’ x 8’ sheets in .040” thickness or can be specified for our wall panel products. Tapestry™ is designed to coordinate with Acrovyn® solid colors, woodgrains, Acrovyn by Design patterns, and aluminum trims. For more information or to view additional patterns, visit www.acrovyn.com/tapestry.
| Acrovyn by Design® Tapestry™ Collection | Groves
