RISING UP TO FALLS

PROACTIVE STEPS FOR FACILITY MAINTENANCE

1 COMPLY

Implement and ensure compliance with your Falls Management Program (FMP).

2 COMPLETE

Complete a broad Living Space Inspection (LSI) to identify risk factors.

3 ASSIGN

Assign a Falls Engineer to complete an Engineer Inspection List.

CURTAINS

Utilize tiebacks for divider curtains to clear resident pathways to reduce risks of entanglement and fall hazards.

HANDRAILS

Inspect hallway handrails to ensure comfortable, ADA compliant grip.

BATHROOMS

Install grab bars, secure loose bathroom handrails.

FLOORING

Repair or replace flooring in hallways and entranceways to reduce risks of falls due to wet or slippery surfaces.

Acrovyn® Wall Protection offers extensive, durable product options that are ideal for healthcare and senior living facilities. Our attractive, ergonomically designed handrails promote mobility and stability for those who need it.
