There is no greater opportunity to earn LEED points than in EA Credit 1, Optimize Energy Performance. A solar shading strategy utilizing fixed and operable sun control devices has a significant impact on this credit by reducing the energy demands of HVAC and lighting systems.

IEQ Credits 8.1 and 8.2, Daylight and Views: Daylighting technologies including solar shading and lightshelves are recommended to meet the intent of this credit.

ID Credit: C/S Suspended, Cantilevered, Horizontal, Vertical, Shadowline™ and Perform™ sunshades* in clear anodized finish are all MBDC Cradle to Cradle Certified™ Silver. *US Models only
