

USGBC LEED® Credit Contributions: C/S Pedisystems® Entrance Flooring

MR Credit 4, Recycled Content:

C/S sources materials with the highest possible recycled content for all Pedisystems products. Contact us for the most up-to-date recycled content percentages.

IEQ Credit 5, Pollutant Source Control:

This credit requires designers to employ permanent entryway systems (grilles, grates, etc.) at least 10 ft. long to prevent dirt, water and particulate from entering the building at all high traffic entryways.

IEQ Credit 4.3, Low-Emitting Materials (Carpet Systems):

Many C/S Pedisystems meet California 1350 test standards for low VOCs, an approved equivalent to the CRI Green Label Plus certification. Passing this test also qualifies Pedisystems for use in Collaborative for High Performance Schools (CHPS) projects.

Many C/S Pedisystems architectural mats and grids* have been Cradle to Cradle Certified™ Silver.

**PediTred®, Pedimat® All Aluminum, Pedigridd® & GridLine™*

ID Pilot Credit 54: Avoidance of Chemicals of Concern:

Increase the use of products and materials that disclose chemical ingredient data and reduce the concentrations of chemical contaminants that can damage air quality, human health, productivity and the environment.

Contact us to speak with one of our LEED Accredited Professionals to learn more about LEED or how our products can help contribute to your project's goals.

Cradle to Cradle Certified™ is a certification mark licensed by the Cradle to Cradle Products Innovation Institute.

ISO 14001 Certified Manufacturing
www.c-sgroup.com/goinggreen

In LEED IEQ Credit 5, the architect/designer is encouraged to specify permanent entryway systems (grilles, grates, etc.) at least 10 ft. in length to capture dirt, water and other particulates at all high volume entryways. This results in improved indoor air quality, reduced maintenance costs and safer floor surfaces that will look beautiful longer.

PediTred®G4 features the building product industry's first on-product label and companion website for material content, human health impacts and life cycle information. Visit <http://transparency.c-sgroup.com> to view the full label.
