Expansion Joint Covers Links

QUAKE.WR.USGS.GOV (http://earthquake.usgs.gov/)
This United States Geological Service site has up-to-date earthquake information from California. It updates hourly and gives an excellent graphic view of seismic activity throughout the area. Also included are real time earthquake maps for the U.S. and the world.

UL.COM (http://www.ul.com/global/eng/pages/)
An online resource for UL product information. You can search the UL® certifications directory by company name, UL® number or keyword.

USGS Seismic Info Maps (http://earthquake.usgs.gov/earthquakes/eqinthenews)
The USGS has assembled real-time maps of recent earthquake activity, real-time seismograms, regional earthquake activity reports, and recent significant earthquakes.

GLOBAL EARTHQUAKE REPORT (http://tsunami.geo.ed.ac.uk/local-bin/quakes/mapscript/home.pl)
Text listing of recent worldwide seismic activity.

RECENT EARTHQUAKES – CALIFORNIA & NEVADA (http://scedc.caltech.edu/recenteqs/)
Map showing locations and intensity of recent and/or current seismic activity in the California and Nevada area.

VISUALLIBRARY.COM (http://wwwaecinfo.com/)
Visual Library is part of Bricsnet.com, which is related to Arcat (architects, engineers, contractors, facility owners, etc.)
